CAPABILITY STATEMENT

CORE COMPETENCIES

OPG+ is an in-situ oil and fuel clean up and remediation service that is environmentally friendly and a fraction of our competitor's cost.

- ✓ 24/7 Mobile Service
- ✓ EPA Approved
- ✓ Eliminates all hydrocarbons related to an oil or fuel spill on site
- ✓ Fuel rendered completely non-flammable in as little as 5 minutes
- ✓ No digging up and removing contaminates, the oil and fuel hydrocarbons are turned to water and CO2 on site

DIFFERENTIATORS

- ✓ On site response within 1 hour
- ✓ Available 24/7, 365 days per year
- ✓ Effective on all surfaces including concrete, asphalt, soil and waterways
- ✓ Nontoxic, biodegradable and harmless to humans, animal and marine life
- ✓ Less expensive than other clean up solutions
- ✓ Oil and fuel turned to water and CO2
- ✓ Listed on the EPA's NCP (National Contingency Plan)

WASTE INDUSTRY CAPABILITIES

- ✓ Quickly eliminates the smell of garbage juice, oil and gas through a neighborhood.
- ✓ Safe around lawns and pets
- ✓ Does not damage concrete or asphalt
- ✓ Eliminates oil that has flowed down the (street) drain - product is safe to put down the drain
- ✓ Continues to treat the stain and significantly lightens or removes - Great for HOAs and customer driveways
- ✓ We clean containers, trucks, equipment, shop floors & wash pads at your facilities
- ✓ 24/7 service

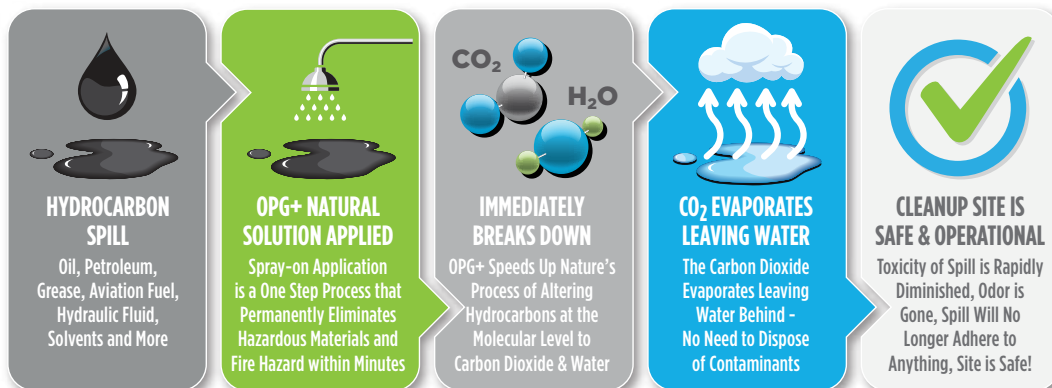

WHAT IS OPG+?

OPG+ Cleanup service utilizes a 100% biodegradable product that is the world's most environmentally safe and cost-effective remediation process for the mitigation of hazardous spills. Whether it's oil, petroleum, grease or organic material cleanup, OPG+ will quickly make your site, vehicle and your business, safe and operational again!

A NATURAL PROCESS

OPG+ is a biological enzyme that converts the waste into a natural food source for the enhanced native bacteria found in the environment. The end result of this process is CO2 and water.

OPG+ will reduce your cleanup costs and permanently eliminate the hazardous waste problem in place, with no secondary cleanup required.
